

Appl. No. : 10/668,852
Filed : September 22, 2003

AMENDMENTS TO THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A method for producing a resin-coated sheet of metal comprising:
supplying top feeding a coating material to a pick up roll of a roll-coating apparatus ~~an applicator roll~~, wherein said coating material comprises a resin containing approximately 2 to 60 parts per weight nickel particles to 100 parts resin and having an average maximum diameter of about 0.1 to 100 μm ;
roll-coating a metal sheet with said material; and
drying said coated sheet.
2. (Cancelled)
3. (Currently Amended) The method of Claim 2 1 wherein said coating comprises direct-roll coating.
4. (Original) A coated metal sheet formed by the method of Claim 1.
5. (Original) A coated metal sheet formed by the method of Claim 2.
